The chilled steel rolls, which were principally used for making sand, were disappointing, the output from them being quite inadequate. However, they have very few working parts to keep in order, their first cost is small compared with jaw crushers, and these considerations may have led to their continued use throughout the works. The sand had to be fine enough to pass through a th-inch sieve, and in arriving at this result the following proportions were obtained: --Particles between th and-th of an inch in the clear 53.8 per cent. n n pth n sth 10 9 i i ii ii YVth 5Vth 10 74 i i n n-gth ii Tv1 ii 4.20 li n less than yth of an inch in the clear 19 16 n The...

Reviews

Thorough manual for publication fanatics. It is actually rally intriguing throgh reading through period of time. Its been written in an remarkably simple way and is particularly only after i finished reading through this book in which actually transformed me, change the way i think.

-- **Morris Schultz**

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).

-- **Prof. Buddy Leuschke**
