

Interaction between the Land Surface and Atmosphere

By Song-Lak Kang

VDM Verlag Apr 2009, 2009. Taschenbuch. Book Condition: Neu. 219x149x23 mm. Neuware - New insight is obtained into the structure of the convective atmospheric boundary layer (CBL) over surface heat flux variation on a scale of the order of 10 km. Aircraft data collected during the International H2O Project (IHOP_2002) and large eddy simulation (LES) are used. The new insight includes the followings: First, the CBL changes from a quasi-stationary state to a non-stationary state when forced by a high-amplitude surface heat flux variation. Second, the structure of the CBL in a non-stationary state cannot be described with the mixed-layer similarity. Third, moisture advection by the surface-heterogeneity-induced mesoscale horizontal flows plays a significant role in initiating moist convection. 232 pp. Englisch.

Reviews

This ebook may be worth getting. I actually have read through and i am sure that i am going to likely to read through again once more down the road. You will not sense monotony at whenever you want of your respective time (that's what catalogues are for relating to should you check with me).

-- **Mr. Golden Flatley**

This ebook is indeed gripping and fascinating, it had been writtern really properly and helpful. I am very easily could possibly get a satisfaction of reading a published publication.
