S. , Office of Technology Assessment : For sale by the U. S. G. P. O. , Supt. of Docs. , 1992. LC Number: HV7936. E7 P63 1992 OCLC Number: (OCOLOC)26814453 Subject: Police -- Equipment and supplies -- Standards -- United States. Excerpt: . . . 8 Police Body Armor Standards and Testing-Volume II: Appendices the backing material (as required) to avoid any Marking and Workmanship overlap of depressions. The 0101. 01 standard again required that armor To be a fair hit for the purpose of measuring be free of specified evidence of inferior workman-deformation, a bullet had to be within the allowable ship. The labeling requirements were enhanced to velocity bounds-for measuring deformation, no include size, type (according to the standard itself), clause (analogous to the clause counting overspeed month and year of manufacture, cleaning instruc-bullets as fair tests if they did not penetrate) allowed tions, and strike face. (The strike face is the side of overspeed bullets to be considered fair if they did not the armor panel intended...

Reviews

This ebook will be worth buying. It usually fails to charge too much. You will not sense monotony at at any time of your time (that's what catalogs are for regarding when you check with me).

-- **Retha Frami V**

Just no terms to describe. This is for those who statte that there was not a worth studying. I am just easily can get a enjoyment of studying a written ebook.
